

Diamond Corrals

"RECTANGULAR TUBE CORRAL" - PATENT PENDING MFG BY BURLINGTON WELDING, LLC

3" x 2" 14 gauge rectangular tubing creates our stoutest unit yet at a total weight of 7,300# and transport length of 36' long from the bumper to the back of the corral.

Unit is equipped with transport lights and 2" ball hitch for easy backing and hooking.

Diamond Corrals

Dual wheel axle helps ensure a smooth pull of the unit up to highway speeds.

Outriggers designed to dig into the ground and stabilize panels while in use.

3 – 4' walkthrough gates with spring latches for easy access into and out of the unit..
